# Harm Reduction Tip of the Week!

02/21/22

**1214 N Wolfe St,  
Baltimore, MD 21213**

**443-478-3015**

### Hours

Mon-Thurs

Open 10am-12:00 pm  
& 12:30pm-3:30pm

Closed 12-12:30pm  
**Closed all day Friday**

**Glass pipe/stem: a safer tool for smoking crack cocaine. A straight stem doesn't burn as quick. You can fit rubber mouthpiece over the tip to prevent from burning your lips. It's safer than using makeshift pipes that might cut up your lips. It's a safer alternative to plastic bottles or soda cans which release toxic fumes.**

**Pusher/ Coffee Stirrer/Bamboo Stick- Helps push the chore boy/screen into the stem to prevent clogging/ swallowing of the screen/ inhalation of the flame. Also helps scrape residue from used pipe.**

## **Why Safer Smoking kits are important...**

- They help reduce HIV/ Hepatitis C transmission
- Reduces COVID, Cold & Flu risks from sharing tools
- Provides connection to care & support

**Mouthpiece- goes over one end of the stem. Helps prevents the hot stem from burning or cracking the lips causing bleeding; which can lead to possible HIV/ Hepatitis C exposure.**

**Sugar Free Gum containing Xylitol- helps preserve tooth enamel. Smoking reduces production of saliva leading to tooth decay. Gum helps produce saliva and helps prevent lockjaw along with drinking plenty of water**

## **Other Items you might get with/in a Smoking kit**

**Chapstick/lip balm-to prevent lips from drying or cracking before & after smoking. Helps heal dry, cracking, or peeling lips.**

**Chore boy/ Copper Scrubber- acts as a filter/screen in the stem. Helps prevent the inhalation of the flame & solid particles of your drugs.**

**Alcohol Prep Pads- helps clean a used pipe, helps clean hands**

**Condoms- always great to have with you when doing drugs. Helps prevent transmission of HIV, Hepatitis C, other STD's & STIs, as well as unplanned pregnancy.**
